

# For people with Alzheimer's disease: Investigational Vaccine

Alzheimer's disease is a devastating disease.

The progression of the disease is likely. As the disease progresses, activities that were once routine can become difficult or even impossible.

Research Doctors are seeking people age 50 - 85 with mild to moderate Alzheimer's disease to participate in a clinical research study to test whether an INVESTIGATIONAL VACCINE may improve the symptoms associated with Alzheimer's disease.

## Premiere Research Institute at Palm Beach Neurology

Directors:

Carl H. Sadowsky, MD, FAAN | Paul Winner, DO, FAAN | Walter C. Martinez, MD, FAAN

4631 N Congress Ave #200, West Palm Beach, FL
